

## Session Initiation Protocol (SIP) Introduction

### Workshop

**Format:** Workshop Recording

**Audience:** Technicians, Installers and Support Personnel

**Duration:** 1 hr

---

### Overview

SIP: The Session Initiation Protocol Today and Beyond. This "SIP" Workshop introduces the Session Initiation Protocol. The target audience is technicians, installers, and support personnel who seek a "broad brush" introduction to this widely deployed packet-based signaling protocol.

### Prerequisites

None.

### Topics

Topics include:

- A historical perspective is provided as to the arrival and acceptance of SIP in the marketplace.
- The focus areas of the workshop include the positioning of SIP within a Mitel component framework and how and where this signaling protocol functions in a converged network.
- Examples of SIP in action are provided.
- Current market trends and market direction regarding SIP will also be referenced.

### Additional Recommended Training

None.
